DAVID HOROWITZ: Welp, he was B'NAI B'RITH, which explains EVERYTHING that's happened in the aftermath of Charlie Kirk's murder.

He was Kirk's mentor, one of TPUSA's major brain trusts & financiers, FATHER of BEN HOROWITZ of ANDREESSEN HOROWITZ (a16z) & BACKED by the ROTHSCHILDS.

Behind The Scenes

At The United Nations

By DAVID HOROWITZ

A World-Union Press Feature

EXCLUSIVE IN LOS ANGELES IN THE B'NAI B'RITH MESSENGER

Goldberg And The Faisal Fiasco

UNITED NATIONS, (WUP) — When the whole country was seething with excitement over King Faisal's blunt attack on Israel and Jewry, the Israeli Embassy in Washington, paradoxically, remained tight-lipped; the Government in Jerusalem mysteriously shrugged its shoulders, and here at the United Nations Ambassador Arthur Goldberg joined in a luncheon honoring the Saudi Arabian Monarch after Mayor John Lindsay, a non-Jew, cancelled a municipal dinner and Governor Rockefeller, another non-Jew, gave up a personal appointment with President Johnson's guest.

DAVID HOROWITZ

Certainly, there is confusion compounded. How explain that almost everybody went out of their way to castigate the King, to punish and snub him, to expose him to verbal and editorial lashings—except the Israeli officials and the foremost American Jew of all—Ambassador Goldberg?

✡

JUSTICE GOLDBERG himself explained it by saying that he had received the invitation from the Secretary General U Thant and that he never declines an invitation from the world's highest executive. But this is sheer quibbling. Goldberg, like all other Ambassadors, members of the Security Council, came to the luncheon not because of U Thant's invitation but because it has become something of a tradition that, in such luncheons, members of the Council should be invited. The invitation, of course, was not a "command performance" and, in any case, Goldberg had an alternative. He could have sent his designated deputy, Ambassador James Madison Nabrit, a non-Jew. Also, the very prudent U Thant would have understood if Goldberg had begged off under the political conditions that erupted.

✡

IT COULD be said that Ambassador Goldberg should not exploit his representation of the United States for reasons of his devotion to the State of Israel. But here Israel was not the only issue. Faisal astonished even the Arabs at the UN when he bracketted "Judaism" with Zionism and thus at once declared a spiritual war on every Jew in America.

This, and not the attack on Israel, it what motivated the Lindsay and Rockefeller snubs. Goldberg was involved as a person, as a Jew—and especially as one who is affiliated with many Jewish national organizations, many of which of late had honored him with various titles.

✡

YET, GOLDBERG came, broke bread with the man who issued the insult and talked to him for some seven minutes. Why?

The answer is two-fold: First, Goldberg is very close to the President whose personal guest the King was and a snub to the King might have been interpreted as an expression of Johnson's displeasure with the royal fiasco at the Washington press conference. Secondly, Goldberg is part of the foreign policy machinery which brought Faisal here to establish a United States presence in the Middle East in an informal alliance with the monarchical Arab States

Just to add a little more clarity, that's the same David Horowitz who is the father of Andreessen Horowitz Co-Founder, Ben Horowitz, and whose parents were members of the American Communist Party and staunch supporters of Joseph Stalin.

And that's the same Michele Bachmann who sits on the TPUSA Advisory Board and previously oversaw the CIA and NSA as a member of the House Permanent Select Committee on Intelligence.

And last but not least, that's the same TPUSA who's Co-Founder & CEO, Charlie Kirk, thanked David Horowitz for being such a key mentor and early financial supporter of TPUSA during the early days of the institution.

Charlie Kirk
Rest in peace to my friend and mentor David Horowitz, who has just passed away. A fearless truth-teller. David was a titan in the battle of ideas and a warrior for Western civilization.

(Krishnan is also a former senior executive at Twitter/X, just for shits and giggles and whatnot.🤔🤦‍♂️)

What about AG Pam Bondi and her "antisemitism" enforcer, Leo Terrell?

Welp, somehow it's worse. Way worse. Hilariously worse. Borderline *satire* even.

I've already covered Pam Bondi and White House Chief of Staff Susie Wiles at length over on X.com, and how their Ballard Partners clients from General Motors, G. Richard Wagoner Jr. and Mary Barra, literally helped create COVID in Wuhan, China with Duke Kunshan University. In fact, Wagoner Jr. is Chairman of the Advisory Board at Duke Kunshan University and Barra is "Member Emeritus".

I also covered how Susie Wiles quite literally worked for Benjamin Netanyahu and Likud (terrorists) on Netanyahu's 2020 reelection campaign over in Israel.

So I won't waste time and space in THIS article re-litigating either of them. Although I *might* do a deep dive on each of them in later parts of what's sure to be one hell of a multi-part exposé series on the Communists and traitors within the DJT2 administration. Besides, I know you'd rather we exposed some operatives and baggage you HAVEN'T heard before... ever. For the time being, I'll just leave you with this small collage to commemorate how

2. B'nai B'rith, or the Independent Order of the Sons of the Covenant
Israel Joseph Benjamin, a European Sephardic Jew, toured the U.S. in 1859-62. Benjamin (no relation to Judah Benjamin, although the two met) was part of a network of humanists associated with Alexander von Humboldt deployed to profile Jewish organizations in the U.S. In a book titled Three Yeas in America he described the B'nai B'rith as follows:
"This is a secret society, like the Freemasons, with passwords, signs, and the like . . . still I think that existence of such an organization is not at all necessary . . ."
The B'nai B'rith was officially founded in October 1843, as part of the Rothschild and British monarchy effort to establish what is today known as the Zionist movement. Founders of the B'nai B'rith, the Order of the Sons of the Covenant, in the U.S. were members of the financial heirarchy of the Rothschild circles, including the Seligmans and Dr. Kuttner Baruch fro

The B'nai B'rith was ostensibly organized so that the Jews could have their own Freemason organization. But its real purpose was to provide the basis from which to finance the subversion of the U.S., and use the U.S. as a base for deploying these networks internationally to protect the Rothschild interests. There were over 44 Jewish organizations in the U.S. along which provided the Rothschilds their service.

When Hitler came to power in 1933 she was, it is true, carried away by the excitement of the torchlight processions, the marching songs and the youth rallies, but what really turned the scale and made her, and many of her school friends become members of the B.D.M.* was the antagonism they felt towards the older generation who were always talking with nostalgia about the past, and on whose tongues the word "socialist" had a scornful ring. She felt that the out of date world of her parents could only be brought to an end by declaring war on the class prejudices of the social strata from which they came, and this she believed Hitler intended to do.

Compulsive grifter Candace Owens has leaked what are supposedly messages from Charlie Kirk in a group chat not long before he died.
Firstly, leaking someone's private messages is absolutely abhorrent, but of course we know Candace has little regard for basic decency or morals.

I am multiracial, but I will say that many of the Indian engineers I've worked with at Q are among some of the worst I've ever had to work with. They are really really good at making slides and talking a lot while saying nothing of value.
Contrasting that with other geographical regions, the Korean, French, Dutch, Eastern European and Japanese engineers are light years ahead of most other engineers, specially the Indians. Even the Chinese engineers are superior. I honestly think the Indians are just trained in school how to interview and use AI to do work for them.
I'm really not trying to be xenophobic - just trying to be honest. The Indian managers at Q and my prior company are of a much higher quality, though, as they came over 15-30 years ago, when quality was prioritized. But 90% of the engineers I've met at the Staff level or lower are only good at slides and excessive talking and a-s-kissing.
+22
There is no racism here, just common sense. Haven't you seen that Indian managers have most/all their teams from India? Same thing goes for Chinese managers. Just check organization charts on teams. And we all know that these people are not smart, just look at the products they make, full of bugs and problems. Q is getting Indianized, following Intel path. I'm black from Africa, and I will never work under an Indian/Chinese manager!
+12
I saw with my own eyes more than one Indian manager staying 10+ years with embarrassing track records of leading teams. They are good at pleasing their own managers by taking credits for the team work at calculated times like TR and MWC to ensure that they are the last ones to be let go. Very selfish behavior that hurts team spirit and productivity, but it is the optimal strategy because they simply cannot fulfill the job requirements and cannot deliver.
+11
@jv it's actually not racism if it's reality. The truth is that Q passes o we qualified Americans every day. Or pushes them out. Hiring managers are former HIBs that hire from their caste and work new, less qualified HIBs to the bone. And eventually toss them out.
But new American grads and old timers are done in this industry.

NEW: a Qualcomm whistleblower reveals the Indian CFO's plans to lay off Americans and replace them with Indians.

Qualcomm is a federal contractor and thus an important company for national security. The company recently initiated a hiring freeze and has laid off American employees. Unstated is that the CFO, Akash Palkhiwala, has no intention of hiring Americans and will simply hire in India instead.

According to the whistleblower, in one team within QCT, every single general manager is now Indian. The CFO has set a goal to have 30 percent of the workforce in the U.S. and 70 percent in India. Additionally, at Qualcomm's recent 40-year-anniversary celebration in San Diego, roughly three-quarters of the attendees were Indian.

Qualcomm's Bangalore and Hyderabad sites are now bigger than its San Diego HQ in terms of employee count. Increasingly the top positions at Qualcomm are being taken over by Indians, as non-Indians are fired or otherwise pushed out. The general manager of mobile connectivity recently departed the company and was replaced with an Indian. This has happened enough times since Palkhiwala took over that it's likely intentional behavior on his part. The whistleblower believes he

Qualcomm are being taken over by Indians, as non-Indians are fired or otherwise pushed out. The general manager of mobile connectivity recently departed the company and was replaced with an Indian. This has happened enough times since Palkhiwala took over that it's likely intentional behavior on his part. The whistleblower believes he is the one actually running Qualcomm and the CEO is just a token.
Anonymous posts at TheLayoff [dot] com confirm much of what the whistleblower is saying (see screencaps). Quote: "The truth is that Q[ualcomm] passes o[ver] we qualified Americans every day. Or pushes them out. Hiring managers are former H1Bs that hire from their caste and work new, less qualified H1Bs to the bone. And eventually toss them out.
"But new American grads and old timers are done in this industry."
Because Qualcomm is a federal contractor, its discriminatory, pro-Indian hiring practices aren't simply illegal and an affront to Americans, they're a threat to national security. The Trump administration must either force Qualcomm to obey the law and hire Americans or tear up all their contracts. No foreigners---ESPECIALLY Indians---in industries vital to American security!

ADAM KWASMAN
Scottsdale City Councilman & Founding and Managing Attorney
Born and raised in Arizona, Adam Kwasman has dedicated each chapter of his professional life to serving the people of his home state.
Adam earned his B.A. from Tulane University, graduating cum laude. He went on to earn his Masters in economics from George Mason University, and received his J.D. from Arizona State University's Sandra Day O'Connor College of Law.
Prior to serving on the Scottsdale City Council, Adam was elected to the Arizona House of Representatives. There, he served as Vice-Chairman of the House Ways and Means Committee, and he sat on the Appropriations, Commerce Committees, managing billions of dollars on behalf of Arizona taxpayers. Adam also served on the Joint-Legislative Budget Committee, where he was directly involved in the settlement approval process for personal injury claims against the government.
From 2018 to 2023 Adam was a partner at Wagner & Kwasman, PLLC, where he successfully recovered millions of dollars for nearly a thousand personal injury clients, both pre-suit and in litigation.
In December, 2023, Adam founded Kwasman Law, creating a boutique model firm, providing white glove service for a select number of personal injury clients. Kwasman Law's success has come directly from Adam's client-focused, personal approach, coupled with his experience in maximizing financial recovery.
Adam currently serves on the Scottsdale City Council, directing a two-billion-dollar budget, and ensuring Scottsdale continues to be a safe, beautiful and prosperous place to work, visit, and raise a family. Because of his elected position, Adam may represent clients who were injured within Scottsdale city limits, but he cannot ethically represent clients with claims against the city of Scottsdale, or their agents.
Adam, his wife Orit, and their children, Zev, Seri, Esther, and Ari are active members of Congregation Beth Tefillah and Chabad of Arizona. In his free time, Adam loves to fly fish and explore Arizona's beautiful, wild places. He also loves to study Torah, Talmud, and Chassidut, and spend time with family and friends.

Let's talk about Rabbi Schmuley Boteach.
Using money from his phone sex and porn sites, Shafrir was able to help start a number of online dating websites, including the Jews only J-Date, which Rabbi Schmuley Boteach would later claim defrauded him out of money in a bad business venture. According to the New York Times, users of affiliated porn sites were being wired into the dating sites to beef up their user numbers.
Throughout the arduous legal process, public records show that the dispute between various Israelis led to lawsuits accusing the Shafrir's of being involved in illegal wiretapping, the use of bribed police officers, and even the alleged collection of blackmail material on American military officials who were secretly homosexual by Sarit Shafrir that she later transported back to Israel. Ties to organized crime, ripping off credit card customers, and even the trafficking of expired drugs to be sold to minorities were also alleged in court.
Eventually, Shafrir was able to survive the chaos and created Explore Talent, which itself is often accused of being a scam in the movie and television industry.

What's this? Doxxing ops with the DOJ, FBI, Israelis and other foreigners, eh?
Yeah, that's not good, @PamBondi.
Btw, is it "Pammmmm" or "Pannnnnd"?

Josh Hammer says here that he thinks Tucker Carlson is "the most dangerous antisemite in the history of the United States."
So can you imagine how apoplectic Hammer must have been when Charlie made Tucker a headliner at AmFest on August 27? And then when Charlie said he was done Show more

Candace Owens is now publicly attacking TPUSA, which is being led by Charlie Kirk's widow, Erika. Candace claims that TPUSA is refusing to release footage they have of Charlie's graphic murder and accuses them of being part of a massive coverup surrounding his death.
She also claims, without evidence, that Charlie expressed massive concerns about his company's finances before he was killed.

This comes just after Candace Owens claimed to be an "Elder" of TPUSA and that she would raise hell if the company didn't include her in its leadership following Charlie Kirk's demise. She's fudding TPUSA because they cut her out and she's trying to perform a hostile takeover.

She does have evidence. I'm getting sick of all the Zio accounts lying about her every hour of the day. She has the letter from Charlie & reads it out loud ffs. And she's upset that TPUSA is withholding the cam angle from the back. It doesn't make sense for them to hide that Show more

Pretty amazing European Union is going to require political country of origin labeling for only two regions of the world and both of them are Israeli?

I knew nothing about Josh Hammer's random tweet about public executions the night before Charlie was publicly executed.

In what context does that tweet make sense?

Literally WTF.

You need to ask yourself ... why is Jack Posobiec repeatedly and relentlessly pushing the corrupt FBI's laughable narrative while completely ignoring the right to due process and presumption of innocence for Tyler Robinson? Does this look organic to you?

@Villgecrazylady @JackPosobiec @GenXGirl1994 @hippyresident @RealCandaceO @BasedSamParker Yep. It's like realizing you're looking at a cold-blooded murderer for the first time, and one who had the gall to gloat over his handiwork to the whole world right after.
